Format-4 person team-2 best balls Nassau. Scorers will be looking at your OVERALL 2 best ball gross & net, your FRONT 2 best ball gross & net and your BACK 2 best ball gross & net. Players' individual tournament scores will be posted by the OSWGA Handicap Chair. We are using Kirkbrae's scorecard to save time as it was also a 2 best ball. Things are basically the same as Kirkbrae was also a 2 BB.

The team has circled the 2 best balls they have chosen for each hole. Then they brought down the total gross score to the gross line. Deducting strokes when applicable they have entered the total net score in the net box. You **must** circle the 2 balls used or the scoring committee will use the 2 highest scores. Note that on the 2nd hole, they circled 2 sixes when one player had a five. The scoring committee cannot change this. However, on hole # 6, they circled 2 scores, brought down the gross and then the net. They should have deducted 2 strokes and only deducted 1. This we can change. **Please, please, please, NO SLASHING as on Mary Lou's score.** Please total individual adjusted scores.

Then total the team's 2 BB front 9, back 9, and 18 hole total both gross and net as done above. Scorers will be using these totals to determine winners. In this case it is 160/133 overall gross and net; 85/73 front gross and net & 75/60 back gross and net.

This team had some addition errors but there is no penalty for addition errors. Your attention to detail with the math is appreciated. Feel free to use your smart phone calculator app AFTER play. Each group should keep 2 cards throughout the round and check at the end to be sure they get the same results.

Have 2 in your group sign and attest the card. Thanks for your help and thanks in advance for picking the person who writes the most legibly to do the scoring. FYI-Players and scores on sample cards are picked randomly and intended for demonstration purposes only. Any questions-please ask Jackie or Chris.
