

SUMMARY OF INTENT TO RUN FOR PRESIDENT OF OSWGA

My name is Laurretta Girouard, I am running for the elected office of President of Ocean State Women's Golf Association. I have been an active member of OSWGA since approximately 2010. During the past several years I have been a board member as the Tournament Co-chair and assuming Tournament Chair this past year. My duties included printing the tournament rules for distribution to the golf carts prior to arrival of the participants. Since I arrive approximately one hour prior to the golfers for the day, I also have copies of the tee sheets, and a paper with volunteer names required for game day check-in. Although not an official duty I provide various snacks at most tournaments. I communicate with the golf course as required for early set up and furniture for check-in. This past year I assumed the responsibility for tee sign distribution to each tee box. Help is usually given and appreciated.

My past work experience was extensive in IBM mainframe software sales covering both large and small companies throughout Rhode Island, Connecticut, and central/southeastern Massachusetts. I completed my career at Allendale Insurance as Vice President of Information Services, with a staff of sixty-five technicians and support personnel primarily for Operations, Technical Service, Communications, Security, help desk, and production control. This department serviced between 7 to 33 remote offices for the purchase, installation, and support of international computer operations. My education required several training and conference sessions throughout my career supporting my degrees in Computer Science and Management.

During the past 16 years, I also served as "President" at two local golf courses in Coventry and Foster.

Should you feel my qualification meet the requirements as President of OSWGA. I kindly ask for your vote at the banquet on November 1st.

~Laurretta
